

## 1. Features

- Image resolution: 480×320
- Lens FOV 100°
- WiFi 2.4G connection+RF
- Mobile APP information prompt: visitor information
- Visitor photo will send to mobile APP within 3 seconds
- 2 pcs AAA batteries, available for one year
- 30days visitor record free cloud storage
- Easy installation, no wiring required

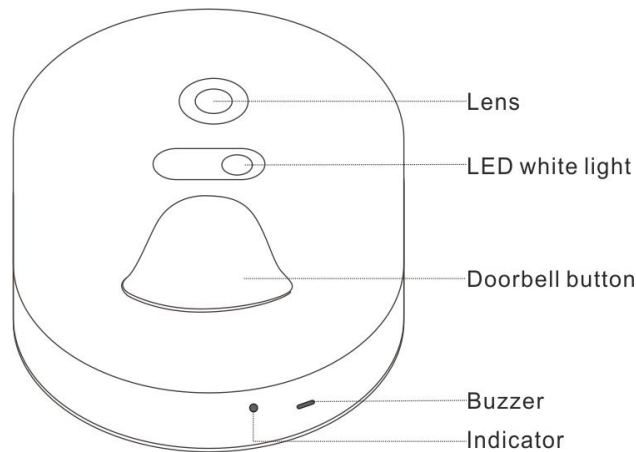

## 2. Parameters

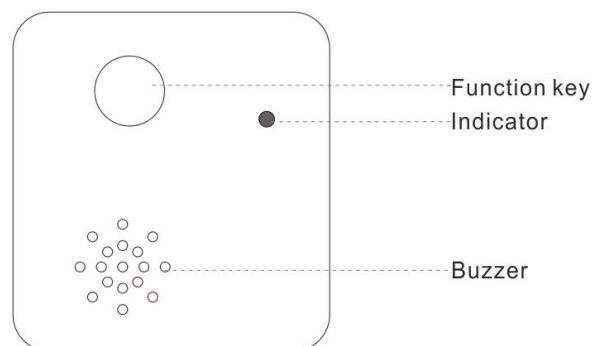

| <b>Outdoor device(camera)</b>       |   |
|-------------------------------------|---|
| Photo resolution                    | 480*320   |
| Photo format                        | JPEG  |
| Image sensor                        | 2 MP 1/4 inch OV CMOS   |
| Display                             | N/A   |
| Lens                                | 100°, F2.4 (aperture)   |
| Transmission mode                   | 2.4G RF   |
| Transmission distance               | 30 m  |
| Night vision mode                   | Support ( 1 white light lamp)                                     |
| Key-press                           | 1 key-press ( only for photograph)                                |
| Power supply                        | 2 triple A batterrys ( Series circuit )                           |
| Microphone                          | N/A   |
| Speaker                             | buzzer  |
| USB                                 | N/A   |
| Surface treatment                   | Source material   |
| Color                               | White   |
| Fixed and mounting method           | 3M glue or Screw ( 2 screws)                                      |
| Battery installation&uninstallation | Fastener(No screw, easy to install&uninstall)                     |
| Alarm system (burglar)              | Support   |
| Size & weight                       | 87(L)*58(W)*15.5mm(H), 80g approximately                          |
| <b>Indoor camera(router)</b>        |   |
| Transmission mode                   | RF+WIFI   |
| Transmission Date                   | WIFI 2.4G   |
| Receive Date                        | RF 2.4G   |
| Transmission distance               | RF 30 meters+WIFI 30meters  |
| Key-press                           | 1 key-press ( short press: RF code match+long press: wifi Reset ) |
| Speaker                             | Speaker (dingdong sound, Power: 0.6W)                             |
| Power supply                        | Wide Voltage ( 100V-240V AC)                                      |

|                            |   |
|----------------------------|---|
| Power supply slot & socket | British socket, American socket, European Socket  |
| Certificate                | TBD (is validating)   |
| Energy efficiency Class    | Class 6   |
| Indicator light            | 1 PCS   |
| Surface treatment          | Source material   |
| color                      | White   |
| Temperature                | 0 to 40°C   |
| Humidity                   | 30% to 90%  |
| Size & weight              | 35(L)*35(W)*45mm(H), 35g approximately  |
| APP                        | Support   |
| Doorbell notification push | Support   |
| Reaction time              | 2s-3s (According by network environment)  |
| Package                    | Outdoor camera (Part A) + Indoor camera (Part B) +1 instruction + 2 triple A battery+1 plastic uptake sheathing |

### 3. Product Structure

**Outdoor device(camera)**

**Indoor camera(router)**
