

### 1. Features

- WiFi connection, can connect the WAN remotely control the operation
- Smartphone APP control, can use as a single unit or combine with smart home system
- Support 25 timing set

### 2. Parameters

Input voltage	110V~240V
Nominated current	10A
Nominated power	2200W
Working environment	Working temperature:-10℃~+55℃, Working humidity<90%
Working frequency	50/60Hz
Support system	Android\iOS
Wireless type	Wi-Fi 2.4GHz
Wireless standard	IEEE 802.11 b/g/n
Housing material	ABS Plastic
Product size	43*60*100mm
